GUIDANCE

How can the club help the prospective student-athlete?

87% of all parents says a college education is the most important promise they will make to their child.

When it comes to college readiness, less than 20% of all youth soccer organizations will provide any meaningful guidance or support, leaving families to “figure it out”.

While some will take a “wait & see” approach, others are “lured” into spending hundreds of dollars on recruiting services and ID Camps with negligible results.

SCHOLARSHIPS

What Is Financial Aid?

SCHOLARSHIPS

Where To Find Scholarships?

High School Guidance Counselor: Most high schools have a guidance counselor that will be knowledgeable about local scholarships or scholarships that previous students have received.

Institutions: Colleges will have their own scholarships displayed on their website. The application for admission is often the application for scholarships, but students might need to complete a separate scholarship application.

Internet: The internet contains a multitude of scholarship search engines that students can use to filter different criteria to meet their personal circumstances.

Independent Education Consultant: IECs can provide help in the scholarship search and many post free resources on their website.

SCHOLARSHIPS

Why Is Financial Aid Important?

Realistic Expectations

- Students & parents need to understand the financial realities of their situation.
- Admission to a college that is too expensive can be a waste of time and upsetting to students.

No College Is Worth Full Price

- The single greatest indicator of success for a student is not where they attend, but what they do there. No college, regardless of the rankings, guarantees success.
- Students need to consider the long-term ramifications of loans when applying to expensive colleges.

College Is Expensive

- College is a significant emotional and financial investment. Any financial aid can reduce the stress and anxiety of the college search process.
- Life outside of the classroom is also expensive. Scholarships and financial aid can free up resources for costs associated with living as a college student.
